

Champion car wash is specially formulated with synthetic lubricating oils which glide contaminants off the surface without marring the finish or stripping the wax. Champion is emulsified with Carnauba Wax as it leaves a clear, thin film that does not have to be polished after wash. Conditioners in the shampoo moisturize the paint while fighting against water spots. Added water softeners help reduce the deposits in hard water leaving behind a spot free finish.

#### **Salient Features :**

- Suitable for manual and mechanical car washing.
- pH balanced to be safe on surfaces and skin.
- Luxurious foam for hand washing and brush cleaning .
- Emulsifies all types of soils.
- Fortified with carnauba wax for water-resistant coating.

#### **Specification :**

Appearance	: Blue Hazy Liquid
Odour	: Citrus
pH	: < 8
Foam	: High
Phosphates	: Nil
Solubility	: 100 %

**Directions for use:**

Wet the car from top to bottom, with a strong jet of standard tap water to rinse away excess dirt. Gently wipe over the entire car with a sponge or soft wool to remove all grit particles. Dispense 25 ml of champion car shampoo into a bucket and agitate with 2 ltrs of fresh water to create enough bubbles to last throughout the duration of the car wash. Use a sponge or cotton cleaning pad and gently wipe the shampoo over the entire car. Work round it in circles, like peeling an orange, rinsing and re-soaking your car wash sponge or cloth, making the sills and bumpers the last thing you touch overall. Splash with plenty of water. Dry the entire automobile with dry wool for a streak free finish on body and glass

**Safety precautions**

Spills are slippery. Soak up on absorbent material and place in closed container for disposal. Do not dispose material out into the drains, sewers, or open waterways unless diluted with water.

**First aid measures**
