

## Viscous Silicone Tyre Dressing

Tires have antioxidants and waxes that protect them from the environment. A dull appearance on the walls may occur overtime, but this is just the waxes migrating to the surface and actually lending a protection to the tire. Champion is formulated to spruce up the tire's dull appearance and sustain the barrier that protects the tire. It is a water based nonionic silicon fortified tyre dressing that gives a silky finish to the side walls of your tyres. Champion contains a synergic combination of naturally occurring oils and polymerized silicones that will nourish the tyres and are also eco friendly. Its pH balanced formula not only prevents the tyres from blooming, but is also gentle on your hands.

### Salient features :

Protects tyres from fading, cracking, discoloration, and UV damage.  
 Fortified with special silicones that help prevent tyre blooming.  
 Environmental friendly and Non Toxic to humans and pets.  
 Improves the appearance of tyres and provide a silky satin look.  
 Ideal to use on any low profile or performance tyres.

### Specification :

Appearance	: Viscous paste
Colour	: Hazy blue
Odour	: Pine
pH	: 6.8 – 7.2
Sp Gravity	: 0.98
Foam	: nil

**Directions for use :**

Clean tires completely using champion tyre cleaner. Ensure that the tyre is completely dry before applying this product. Apply using a tyre dressing applicator , dense sponge or cotton cleaning pad and gently spread the polish over the walls of the tyre. Work round it in circles to spread out and cover all crevices completely. Ensure a uniform coating by cleaning up areas of excess product and allow to dry. A 40 – 50ml of the product will shine and seal 4 standard size car tyres depending on tyre wall condition.

**Safety precautions**

Spills are slippery. Soak up on absorbent material and place in closed container for disposal. Do not dispose material out into the drains, sewers, or open waterways.
