

NATURAL ENZYMES FOR WASTE BIO-DEGRADATION

Biozyme Active

Biozyme active gives the highest quality cultured superior strains of bacterial enzymes designed for accelerated organic waste degradation.

BIOZYME – Active has been formulated with a special mix of bacteria, enzymes and nutrients that are particularly effective in digesting soils in the septic system. Its unique combination of enzymes quickly converts carbohydrate, oil, grease, proteins and cellulose into carbon dioxide and water. Systematic use of Biozyme active decreases the frequency of emptying the septic tank, removes the unpleasant smell and efficiently cleans the sanitary system.

Salient Features :

- 100 % natural and non-toxic, safe to humans, pets and environment.
- Remove build-up and helps stop cess pool /septic systems block.
- Helps remove septic odour.
- Biodegradable and eco-friendly
- Natural bacteria digest and liquefy carbohydrate, oil, grease, proteins and cellulose.
- Prevents human waste and untreated water from contaminating ground water.

Specification :

Appearance : Off white granular solid
pH : Not available
Solubility in water : soluble

Directions for use :

Each bottle contains 10 nos of water soluble sachets and 2 sachets of buffer. Initially drop one buffer into the toilet bowl and doze 20 ltrs of water to prepare an active area for enzymes to work. Wait for one hour. Drop one sachet into 20 Ltr of luke warm water and allow the enzymes to culture for 2 hours. Pour the contents into the toilet bowl and flush with extra volume of water. Doze after hours or late at night so that the septic system will no longer be used overnight or for 8 hours. Repeat the process for 10 days with the buffer to be added on the fifth day. **Ensure that no oxidizing chemicals like bleach, Toilet cleaner, etc enter the septic system while BIOZYME - ACTIVE is in use as it can kill off the bacteria.**

Application :

- Septic tanks
- Cess pools
- Drain fields
- Grease traps
- Floor drains
- Laboratories

Precautions :

High doses of cleaners, Bleach or disinfectants, Detergents or antibiotic drugs or a sudden change in the pH of the system can kill off the micro-organisms rendering the system inactive.

For best results , each sachet have to be used daily. Ensure that no chemicals enter the septic system while BIOZYME - ACTIVE is in use.

For best results use warm water to prepare the BIOZYME - ACTIVE solution.

Storage :

Keep in a cool dry and well ventilated area.

Screw on cap tightly after use.

Do not store along with oxidizing materials like Bleach, Alkali or toilet cleaners.

Keep out of reach of children.

First aid measures

Inhalation: Remove victim to fresh air. If necessary, use artificial respiration to support vital functions. Seek medical attention.

Skin Contact: If product contacts skin, wash skin thoroughly with soap and water after handling. Seek medical attention if irritation persists.

Eye contact: If product enters the eyes, open eyes lids and flush with plenty of water for 15 minutes. Seek medical attention if irritation persists.

Ingestion: If product is swallowed never induce vomiting or give milk or water. Get urgent medical attention.

Packing : 100 gms and 1Kg bottle pack.

Shelf Life : 2 Years from the date of manufacture .

Important :

Be sure to read all Directions, Safety and First Aid Measures on product labels before use of BIOZYME ACTIVE or any INCON product. If in doubt, get in touch with INCON customer service. Material Safety Data Sheets for all INCON products are available by visiting www.inconproducts.in

Non Warranty :

Manufacturer or seller of this product makes no warranty expressed or implied concerning the use of this product other than the aforementioned purpose. Manufacturer or seller is not liable for any injury or damage caused by this product arising out of misuse, misunderstanding or any application not specifically described and recommended on the safety data sheet.

Guarantee :

INCON's production and quality control system ensure uniform quality. However if dissatisfied with the performance of the product, you may return any unused portion for credit or replacement within 6 months of the date of manufacture.
