EcoDet

Liquid Laundry Biodetergent

Natural and organic products are for those who have their preference for health and the environment. ECODET is a natural laundry Bio-detergent based on enzymes that is safe, effective and value for the money spent.

When stains remain on cloths after washing, the residues of this stains may act as a kind of glue and attract soil particles in the wash water resulting in fabric graying and dirty cloths. ECODET biodetergent takes stain removal one step further than bleaching agents because rather than just stripping the outer layer of the overall fabric including the unstained area, the enzymes only digest the stains leaving the cloths in its original condition as possible.

1. Removes stubborn stains
2. Cleans at low wash temperatures
3. Protects from fabric graying by preventing soil deposition on clothes
4. Keeps clothes looking like new even after several washes.
5. Made with natural and bio degradable ingredients

This detergent is suitable for a variety of fabrics including cotton and synthetic and cotton synthetic blends. Suitable for both Manual and machine wash. Equally suitable for white as well as coloured fabrics.

Warning : Do not use this detergent to wash silk and wool.

(Classic contains enzymes that are there to remove proteins. Silk and wool compose of proteins and so the enzyme will eat away at it.)

Directions of use:

Type of wash & Fabric load	Mild	Normal	Stubborn	Extreme Stubborn
Machine (TL &FL) 5Kgs	20ml	40ml	60ml	80ml
Hand Wash 5 Kgs	25ml	40ml	60ml	80ml

Salient features :

- Rapid action formula for quick dissolving.
- Works faster to get your clothes clean.
- Gentle on fabrics and the environment .
- Active enzyme cleaning system ensures that even the most stubborn stains are removed easily.
- Less alkaline to maintain the softness and brightness of fabrics. Suitable for washing baby clothes

For Pre-spotting stains : Apply few drops of Ecodet directly on the stains.

Rub the area with hand and allow the clothes to remain for few minutes before washing. Ecodet acts tough on curry stains and ring around the collar stains (Sebum stains)

For extremely stubborn stains use an extra half of the recommended dosage and put laundry through warm washing.

Do not use hot water above 50 Celsius as it may destroy the enzymes.

ECODET offers effective washing and optimum colour protection

for all textiles at temperatures of 30° to 50°C. The formula with natural

multiple Enzymes is free of bleaching agents and have special colour protection agents, that prevents colours from bleeding onto other pieces of laundry and ensures that your coloured laundry is cleaned right down to the fibres while protecting the colours.

Precautions :

KEEP OUT OF REACH OF CHILDREN

Skin contact : if on body do not allow to wipe dry. Wash off with water.
