

Pearl

Pure glycerin soap

Pearl is a cold-process hand crafted soap made out of a perfect blend of coconut oil with other beneficial oils and fats. Its unique formulation has the glycerin retained in the soap in the most natural and unaffected manner.

Coconut oil is the richest source of natural glycerin, the finest ingredient available for soap in the world. Glycerin attracts moisture. When applied to the skin as soap, glycerin produces a barrier on the skin that prevents moisture from washing off, as well as draws moisture from the air making skin soft and gentle. All of our ranges of glycerin soaps contain glycerin, typically at around 15% to 20%.

Pearl is also nourished with plant butters for extra exfoliation, creating a sumptuously smooth skin feel. Pearl can be used as Shower Soap, Facial Wash Soap and Baby Cleansing soap.

Fragrance Listing :

- ü Generic (Citrus Spice)
- ü Aloe Vera
- ü Tulsi
- ü Mint

Salient features :

- Gently removes oil and dirt from your skin.
- High glycerin content leaves a smooth and gentle skin.
- Moisturize your skin without affecting the skin's natural pH.
- Works like a humectant and softening agent.
- More economical and compares favorably to the leading brands.

Specification :

Appearance	: Transparent bar with different colours
PH	: 8.5
Moisture (%)	: < 6
Odour	: Pleasant
Main Ingredients	: Vegetable oils and essential oils

Directions of use :

Body wash : Wet your skin in the shower or bath. Use soap as usual. Unlike harsh soap that are more abrasive, pearl glides over your body wetting and lathering. Washing it off is more soothing as it gives the skin a soft feel and relaxation.

Facial Wash : Wash your face with water. Rub Pearl over your hand to create enough lather. Apply it all over the face avoiding the eyes. Scrub for a little while and rinse it off and pat dry with a towel. Don't rub, because rubbing takes away moisture. Can be used to exfoliate the dead skin cells and removes the excess oil from the skin to unclog pores.

Precautions :

While Pearl is very mild and rarely causes hives or rashes, in some cases, soap does cause an allergic reaction. In this case avoid using the soap.

If left in bathroom it may attract too much moisture from the air. This is an inherent property of glycerin in the soap. To avoid this situation pat the soap dry with a towel after use and use a soap dish that has holes for drainage.

First Aid Measures :

If inhaled: Move person to fresh air. If symptoms persist, call a physician.

In case of skin contact: This product is formulated for use on skin but should always be immediately washed off with plenty of water. Discontinue use if irritation and redness develop. If conditions persist for more than 72 hours, consult a physician.

In case of eye contact: Rinse immediately with plenty of water for at least 15 minutes. Remove contact lenses if any. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.

If swallowed: Keep respiratory tract clear. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. DO NOT induce vomiting unless directed to do so by a physician.

Storage :

Store in a cool and dry area away from direct sunlight.

Exposed condition will attract moisture from atmosphere to sweat.

Keep out of reach of children.

Packing : 75 grams, 100 Grams & 125 grams

Shelf Life : 2 Years from the date of manufacture .

Important :

Be sure to read all Directions, Safety and First Aid Measures on product labels before use of Pearl or any INCON product. If in doubt, get in touch with INCON customer service. Material Safety Data Sheets for all INCON products are available by visiting www.inconproducts.in
