

Nature Care VCO Shampoo

Fights Dandruff Naturally

Organic Virgin Coconut Oil shampoo

The ancient Vedic scripture upholds long and rich hair to symbolize presence of **Chaitanya** (Wisdom) and **Sattvikta** (Righteousness). The individual radiates the celestial values of Purity, Morality and Righteousness. Vedic culture reminds our rich heritage of using natural ingredients like oil, ash and salt to nourish our hair and clean our bodies. Nature care shampoo was created using oil from “KALPA VRIKSHA” known as “The tree of life” along with other natural ingredients to offer you a delightful experience into our past culture.

Nature care shampoo was made out of extra pure organic virgin coconut oil (VCO) with a blend of other essential oils and salts. The combination of oil and fragrances from plants and fruits brings you the most wonderful experience in the shower. VCO has high affinity for hair proteins. It penetrates deep into the hair shaft, moisturizing your scalp and hair and restores its natural shine and radiance. It offers a magnificent long-lasting lather and leaves your hair radiantly healthy.

The pure Glycerine and Lauryl Amine in virgin coconut oil provides anti-fungal and anti-bactericidal properties that fights germs on the scalp and helps to prevent dandruff and itchiness to keep your scalp healthy and hair beautiful. The Aloe Vera and other chosen ingredients lend support to clean and activate the scalp function by rejuvenating the hypodermic cells for fresh hair growth.

To learn more of the beneficial values of VCO, turn on to INCON's Organic VCO profile.

Salient Features :

Made with a technology that preserves the natural benefits of VCO.

Hydrates and moisturizes the hair naturally.

Nourishes and Revitalize the scalp for rich hair growth.

Treats many skin disorders such as eczema and dandruff naturally.

Directions for Use :

Begin with thoroughly wet hair. Massage shampoo into wet hair to create a nice lather. Using your fingers like a comb, smooth the lather along your hair. Gently and slowly massaging it into the scalp and hair working up a good lather. Rinse your hair thoroughly.

Tips for hair washing :

Unlike cosmetic shampoos, natural shampoos are thin in nature. It can take a little while to get used to, but it's worth when your hair becomes softer and healthier than ever.

It can take a few days for your scalp to adjust when switching to a natural shampoo. In the beginning, it may feel like your hair is oilier and heavier than normal. Rinse your hair well and you will find that your hair's texture is more composed with less oil at the roots and healthier, fuller hair with moist tips at the bottom.

Safety precautions:

Spills are slippery. Soak up on absorbent material and place in closed container for disposal.

Do not dispose material out into the drains, sewers, or open waterways unless diluted with water.

First aid measures:

Inhalation: Remove victim from exposure. Remove contaminated clothing and loosen remaining clothing. Remove patient to fresh air. Seek medical advice if the patient feels uncomfortable.

Skin Contact: If skin contact occurs, immediately remove contaminated clothing and flush skin with running water.

Eye contact: Keep eyelids open and flush with copious amount of water for 15 minutes. Remove clothing if contaminated and wash skin. Seek medical advice if irritation persists.

Ingestion: Rinse mouth with water. If swallowed, do NOT induce vomiting. Give a glass of water to drink. Never give anything by the mouth to an unconscious person. If vomiting occurs give further water. The shampoo contains natural potassium salts that can create electrolyte imbalance in the body. If potentially large volume is consumed seek urgent medical help.

Storage :

Store in a cool and dry place.

Screw on cap tightly after use.

Keep out of reach of children.

Packing : 200 ml & 500 ml
