

With the goodness of Aloe Vera

# Refresh

## ANTI-BACTERIAL HAND SANITISER GEL

## YOUR LIFE IS IN YOUR CLEAN HANDS

The act of just washing your hands in water and drying with a towel will remove oils in your skin. When you wash your hands frequently, you tend to remove more oil than your skin can produce, and that can eventually make it dry, rough, and cracked.

Refresh is enriched with Aloe vera extracts known for its rich cleansing and soothing properties. Aloe Vera contains natural moisturizers that help retain moisture on dry and rough skin. After you are finished sanitizing, the alcohol will evaporate off of your hand killing the germs, and the Aloe Vera in Refresh will remain and form a protective layer on your skin leaving it soft for you. Alcohol helps fight germs and keep hands virtually clean and free of germs.

Refresh Gel is designed to instantly sanitize hands without soap, water or towels and kills 99.999% of common germs within 15 seconds. Refresh is also specially enriched with Vitamin E to compliment further skin softness. Ideal for use in hospitals and clinics, Dental clinics, Child care centers, Veterinarians, Food service facilities etc . No water or rinsing is needed. Just rub your hands with Refresh and dry.

### Salient features :

- ideal when water, soap and towel are not available.
- Compares favorably to leading brands at the fraction of the cost.
- Contains pure Aloe Vera extract to keep skin clean and soft.
- Kills 99.999 % of most common germs.
