

TILE X Cleaner

Powerful heavy duty tile cleaner that cleans any acid resistant hard surfaces.

Contains special grease cutting additives and detergents for instant cleaning.

Excellent for use in bathrooms, swimming pools, hot tubs

Powerful heavy duty foaming tile cleaner that clings to and cleans any acid resistant hard surfaces. Contains special grease cutting additives and detergents for instant cleaning and grime dissolving action. Destroys the toughest soap scum. This low PH product also removes dirt, rust stains, hard water build up, mildew, salts, calcium and lime stains. Excellent for use in bathrooms, swimming pools, hot tubs and anywhere water causes oxidation and mineral deposits.

Salient features ;

Concentrated formula.

Mixture of acids for optimum cleaning.

Added with corrosion inhibitor that protects metals from corroding.

Eco-friendly and Bio-degradable

Specification :

Form	: Viscous clear blue liquid
Surfactant	: Nonionic
pH	: 2 - 2.5
Specific gravity	: 1.06 to 1.07
Odour	: Lime
VOC	: Nil

Directions for use:

a) Pre-wet surface prior to application to reduce adsorption.

b) Dilute as necessary.

1. Dilute to correct ratios as required: Light cleaning on glazed and unglazed ceramic tiles, slates, quarry tiles use 1 part tile cleaner to 10 parts clear water. Heavy soiled areas will require 1 part to 4 parts clear water.

2. Liberally apply the solution to the floor area to be cleaned. Leave in contact with the area for approach 5-10 minutes. Using a stiff bristled brush or a scouring pad, thoroughly scrub the area treated with the solution.

3. Mop up the solution and rinse well with water up to 3-4 times until all traces of the solution have been removed.

4. Very heavily soiled area may require (subsequent applications) more concentrated dilutes of 1 part clear to 2 parts clear water.

Coverage: 20-40 M²/ Ltr depending on the aforesaid dilution ratio.

Safety Precautions :

1. Keep out of reach of children.
2. Store only in original container in a cool and dry place. Do not mix with detergents or other oxidizing chemicals. Fumes can turn out to be toxic.
3. Do not use on areas that are not guaranteed acid resistant ie, Marble Terrezo, Granite, Oxides etc.
4. Do not use on tiles until the additives and grouts on the joints are fully cured.
5. Corrosive liquid, always use rubber gloves while handling.
6. Do not release to the environment unless the product is neutralized.

First Aid measures :
