Power to
Dissolve

Dishwasher detergent powder

Rigor – Dishwasher detergent powder

Automatic dishwashers require detergents with special characteristics to perform well. Rigor, Anti-bacterial Automatic Dishwasher detergent powers through grease & grime to bring sparkling clean dishes. Its unique formula with TCCA cleans and disinfects dishware for better shine and freshness. Rigor is also added with special agents that subdue the hardness causing minerals and produces low suds for enhanced wash.

Salient features

- Ultra soft to penetrate and loosen soil.
- Low foam to enhance washing action
- Fast emulsification of greasy or oily soil.
- Helps water to sheet off surfaces of dishes.
- Protect china patterns and metals from corrosive effects.

Specification :

Appearance	: White powder
Nature	: Alkaline
pH	: 13 +/- 0.5
Density	: 1.1

Dozage Instructions :

- Use 2 table spoons for soft water.
- Use 3 table spoons for medium hard water.
- Use 4 table spoons for Hard water

Directions for use :

- Fill both pre-wash and main wash cups completely.
- Don't overcrowd dishes; Ensure dishes do not block water flow
- Soiled surfaces should face spray.
- Use less detergent for soft water/smaller loads.
- Hot water is essential for effective results in dishwashing.
- For very hard water we recommend using our Rinse Aid.

Temperature :

The temperature of the wash water is an important factor in dissolving detergent, removing food soils and drying dishes properly. To do these things most effectively, the water temperature at the dishwasher should not be lower than 130 degrees F (54.4 degrees C). As temperature is reduced, the removal of greasy and oily soils becomes more difficult; spotting and filming on dishes may occur as well as improper drying.

For best results

Load dishwasher correctly for best results.

Use recommended dosage of dishwasher detergent.

Add the required measure of detergent just before turning on the dishwasher.

Operate dishwasher only when a full load is accumulated.

Run the appliance in a water temperature of minimum 55 Deg. Celsius for the detergent to dissolve rapidly and perform.

On completion of the cycle, ensure that no detergent is left in the dispenser cups. Clean out if necessary.

Use rinse aids for use in very hard water.

Soft water requires less detergent, since too much will cause etching of glassware. Hard

water requires more detergent to get good wash performance.

Caution :

Utensils like hand painted china, wood and silver ware are not recommended for detergent machine wash.

Storage

Keep Rigor dishwasher detergent in original container.

Store the detergent in cool dry place away from moisture to prevent lumps.

Keep the detergent out of the reach of children.

First Aid Measures :

Contains alkaline silicates and chlorinated materials.

May cause skin irritation. Wash with plenty of water .

If Ingested: If potentially dangerous volume of this material have been swallowed,

Get urgent medical attention.

Avoid contact with skin and eyes. In case of contact with skin and eyes flush with water. If irritation persists seek medical help.

Safety Tips :

Rigor is a highly alkaline product. Cause irritation and a burning sensation. Harmful if swallowed. Wear protective clothing, gloves, eye/face protection and suitable respirator if required.

Store automatic dishwasher detergent out of the reach of children,

Add detergent just before turning on the dishwasher. Return the product to storage shelf immediately.

On completion of the cycle, ensure that no residue is left in the dispenser cups. Clean out if necessary.

Hot water is ideal for effective results in automatic dishwashing. Exercise caution to prevent possible burns and scalds.
